EVERYONE IS WELCOME

The vast majority of our world does not have a relationship with Jesus or acknowledge the relevance of having Him as their Rock in times of trouble. People everywhere are living through dire situations, but without hope, peace or guidance and the only One who can help them is just an introduction away. The question is, though, how can this “meeting” be set up?

To answer that and many more questions, I am thrilled to invite you to this year’s Kingdom Class Artists Retreat in Wölmersen, Germany, to hear how God uses the talents that He gave us for His purposes, and to learn how our life experiences are exactly what validates our testimonies that Jesus is all powerful and all mighty! All who want to learn more about practical evangelism is welcome to come, and for those in the performing arts, there will be an opportunity to share in an outreach event similar to what God has done through the unique testimony concert ministry which I started in 2014 and has reached thousands in Asia, Europe, North and South America.

Come join us and see that the purpose of your redemption is to showcase exactly who our Saviour truly is!
